

INSTALL (See below for REMOVAL pricing)

Prices start at (for up to 2-story from ground to gutter):

- 5" Gutter - \$6.25 LF
- 2" x 3" Spout - \$6.25 LF
- 3" x 4" Spout - \$9.50 LF
- Add 5% to gutter LF for waste including machine feed and trimming

Costa Gutter installs factory applied paint and prime, formed-on-site, steel gutter and steel spouts, uses oval outlets vs smaller round, spaces hidden hangers at approx 3' apart.

MITER GUTTER CORNERS

- ADD \$25 - \$35 for each miter corner.
- * Costa Seamless Gutter Service custom makes all corners from the gutter runs.

REMOVAL - Tear Off, Chop, Haul, and Disposal

- **Starting at** \$1.00 LF for not "locked on" gutter and spout **up to 1 3/4-story**
- **Starting at** \$1.20 LF for not "locked on" gutter and spout **up to 2-story**

*Please do not undervalue this service. If not paid fair price, we will not do it, leaving it up to the homeowner to handle. It is not uncommon for this to sometimes be the hardest, most time-consuming part of a job.

DOWNSPOUTS & ELBOWS/BENDS

Downspouts come as 10' long sticks. For every 1-story spout, an **entire 10' stick of spout is consumed**, regardless of the height of the wall.

How to Measure Downspouts:

- One-Story Spout = 10 LF of spout (**add** 5 LF for each additional 1/2 story)
- **Add for each** spout elbow/bend 2 LF to overall spout footage
- **Add** for spouts that go through decks, fences, etc. \$25 - \$35
- Spout Extension = 5 LF (unless longer, then count them as 10 LF)

ADDITIONAL NOTES

- Do not confuse steel gutters with aluminum. Most gutters in our region are steel. Steel is thicker, stronger, and more suited for our climate.
